

PRO Unsold Coin Escrow Agreement

When the PRO Coins are premined. 75% of all unsold coins will be held in an Electrum based multisig wallet. To promote trust in the PRO project and execute a successful roadmap we have established an escrow arrangement using a multisig wallet. 3 of 4 signatures will be required to unlock this wallet.

Escrow signatories will be:

- ● Lauda - Bitcointalk
- ● Minerjones - Bitcointalk
- ● Carlos Contreras (Patriarch) – PRO Founder
- ● Irving Gerardo – PRO Marketing/Community Manager

Lauda and Minerjones will be the escrows. They will confirm on our Bitcointalk Thread. The escrow fees shall be paid the day Escrow starts. Which is the same day PROC are premined.

The following will constitute how the Escrow Signatories will release coins as outlined below.

Project Coins release

The PRO Balance after ICO will be released via multi sig on a 3 of 4 bases, comprising of at least 1 Escrow and two PRO team members.

Funds will be released in 3 stages when the following milestones are met:

1. PRO Solutions APP is developed and is a viable product: 30% coins released
2. PRO Merchant APP is developed and is a viable product: 25% coins released
3. PRO Exchange APP is developed and is a viable product: 20 % coins released

PRO Solutions is scheduled to commence development in Q2 2017, to which a final deadline date has not been established.

Pro Merchant is scheduled to begin development in Q4 2017.

PRO Exchange development will start on Q1 2018.

Coins are not to be released until each application is functional and its basic purposes are met as described in PRO Whitepaper.
